حفل تكريم الخريجين
جامعة تكساس إي أند أم في قطر
الدراسات العليا و برنامج البكالوريوس

جامعة تكساس إي أند أم في قطر
الخميس ، ٧ مايو ٢٠٢٠
برئاسة
الدكتور سيزار و . مالاڤي
العميد ، جامعة تكساس إي أند أم في قطر

كلمة ترحيب من جامعة تكساس إي أند أم في قطر الدكتور سيزار و . مالاڤي
العميد ، جامعة تكساس إي أند أم في قطر

تحية من جامعة تكساس إي أند أم مايكل ك . يونج
الرئيس ، جامعة تكساس إي أند أم

كلمة الطلاب عبدالكريم محمد
خريج هندسة البترول لعام ٢٠٢٠

تقديم الحاصلين على الشهادات الدكتور ايونيس ج . ايكونومو
عميد مشارك للشؤون الأكاديمية
جامعة تكساس إي أند أم في قطر

منح الشهادات الدكتور سيزار و . مالاڤي
العميد ، جامعة تكساس إي أند أم في قطر

قراءة أسماء الخريجين الدكتور حسن سعيد بزي
عميد مشارك للبحوث و التقدم
جامعة تكساس إي أند أم في قطر

الالتحاق برابطة الطلاب القدامى الدكتور ظبيه المهندي
خريجة عام ٢٠١٢

TEXAS A&M UNIVERSITY GRADUATE RECOGNITION CEREMONY

Graduate & Baccalaureate Program

Texas A&M University at Qatar

Thursday, 7 May 2020

Presiding

Dr. César O. Malavé

Dean, Texas A&M University at Qatar

Welcome from Texas A&M University at Qatar	Dr. César O. Malavé <i>Dean, Texas A&M University at Qatar</i>
Greetings from Texas A&M University	Michael K. Young <i>President, Texas A&M University</i>
Student Speaker	Abdulkarim Mohamed <i>Class of 2020, Petroleum Engineering</i>
Presentation of Degree Candidates	Dr. Ioannis G. Economou <i>Associate Dean for Academic Affairs, Texas A&M University at Qatar</i>
Conferring of Degrees	Dr. César O. Malavé <i>Dean, Texas A&M University at Qatar</i>
Roll Call of Graduates	Dr. Hassan S. Bazzi <i>Associate Dean for Research and Advancement, Texas A&M University at Qatar</i>
Induction into The Association of Former Students . . .	Dr. Dhabia Al-Mohannadi <i>Class of 2012</i>

*The Texas A&M University System
Board of Regents*

Elaine Mendoza (Chairman) San Antonio, Texas, USA
 Tim Leach (Vice Chairman) Midland, Texas, USA
 Phil Adams Bryan/College Station, Texas, USA
 Robert L. “Bob” Albritton Fort Worth, Texas, USA
 Jay Graham Houston, Texas, USA
 Michael A. “Mike” Hernandez III Fort Worth, Texas, USA
 William “Bill” Mahomes, Jr. Dallas, Texas, USA
 Michael J. Plank Houston, Texas, USA
 Cliff Thomas Victoria, Texas, USA
 Levi McClenny, Student Regent College Station, Texas, USA

Chancellor

John Sharp Austin, Texas, USA

Texas A&M University at Qatar
Joint Advisory Board

- His Excellency Dr. Mohammed bin Saleh Al-Sada *Former Minister
of Energy & Industry
State of Qatar
Chairman*
- Dr. Carol A. Fierke *Provost & Executive Vice President
Texas A&M University
Vice Chair*
- Dr. M. Katherine Banks *Vice Chancellor for Engineering
The Texas A&M University System
Dean, College of Engineering
Texas A&M University
Director, Texas A&M Engineering Experiment Station*
- Mr. Bill Bullock Jr. *President, Asia Pacific & Middle East
ConocoPhillips*
- Dr. Olivier Dubrule *Professor, Earth Sciences & Engineering
Imperial College London, UK*
- Dr. Pam Matthews *Dean, College of Liberal Arts
Texas A&M University*
- Dr. Robert Gordon Moore *Professor, Chemical & Petroleum Engineering
University of Calgary, Canada*
- Mr. Alistair Routledge *President & General Manager
ExxonMobil Qatar*
- Dr. Marc Vermeersch *Executive Director
Qatar Environment & Energy Research Institute*
- Ms. Buthaina A. Al-Nuaimi *President, Pre-University Education
Qatar Foundation
Ex-officio Member*
- Dr. César O. Malavé *Dean
Texas A&M University at Qatar
Ex-officio Member*
- Dr. Ioannis G. Economou *Associate Dean
for Academic Affairs
Texas A&M University at Qatar
Ex-officio Member
Secretariat*

Candidates for Master's Degrees

Ceremonial Mace

The Texas A&M University at Qatar mace leads the procession at commencement and other ceremonial occasions. Historically, a mace was carried before or placed near a magistrate or dignitary as a sign of authority.

Constructed from walnut, pearls and 100 troy ounces of sterling silver, each element was chosen to represent the history of Qatar, the United States or Texas A&M. When united, these symbols embody the solid foundation upon which Texas A&M at Qatar has been built and its future in improving the lives of the people of Qatar and the world.

The dome is a stylized version of an ancient Arabic dome and incorporates the Qatar emblem of the sword. A large pearl crowns the dome and approximately 140 pearls adorn the base; pearls were chosen because Qatar was primarily a pearl economy before the energy discoveries. A quote from Her Highness Sheikha Moza bint Nasser, “The sharing of knowledge, ideas and values is the noblest way to transcend barriers,” is written in Arabic and English and unites the flags of Qatar, the United States and Texas. Majestic falcons separate the seals of Qatar, Texas and Texas A&M.

The handle incorporates agricultural elements from Qatar and Texas: carved date palm leaves top silver dates, the trunk of a carved palm tree is encircled with oak acorns and leaves are carved below the acorns. The intertwining limbs making up the foundation of the handle illustrate the strength and unity of combining the two campuses in Qatar and College Station.

Texas A&M architecture professor Rodney Hill designed and created the mace, which is one of the most elaborate university maces in the world.

Latin Honors

Students graduating with Latin honors distinction have enrolled in and successfully completed a minimum of 60 undergraduate semester hours at Texas A&M University. The category of Latin honors attained is determined by grade point ratio of all college hours attempted, excluding transfer hours. The categories are as follows:

Cum Laude: A student may be graduated *Cum Laude* with a grade point ratio of 3.50 to 3.699.

Magna Cum Laude: A student may be graduated *Magna Cum Laude* with a grade point ratio of 3.70 to 3.899.

Summa Cum Laude: A student may be graduated *Summa Cum Laude* with a grade point ratio of 3.90 or above.

Honors Stoles

Texas A&M undergraduates who complete the requirements for any of the distinctions listed above are awarded a gold satin stole to wear with their commencement robes. The university presents the stoles to honors graduates in recognition of their academic accomplishments.

Texas A&M University at Qatar Stole

All graduates from Texas A&M University at Qatar are presented a maroon stole to wear with their commencement robes recognizing the unique heritage of their home institution and the shared mission with the State of Qatar. The State of Qatar is represented by the white resembling the country's flag and Texas A&M University is represented by the university mark.

Undergraduate Research Scholars

The Undergraduate Research Scholars Program provides motivated undergraduates the opportunity to engage in quality, in depth research experiences. Over two semesters Scholars work with faculty mentors to produce a formal undergraduate research thesis and a public presentation of their research results.

Elizabeth Jijy Abraham, Chemical Engineering
Maryam Rashid S F Al Buainain, Mechanical Engineering
Fatima Ali M S Al-Janahi, Electrical Engineering
Anurag Srivastava, Mechanical Engineering

Rahul Balamurugan, Electrical Engineering
Jerahmeel Corbane Libed Bautista, Petroleum Engineering
Sofian Mohammed Ghazali, Electrical Engineering
Hassan Ejaz Haider, Mechanical Engineering
Taha Osama Kubbar, Chemical Engineering

Academic Regalia

Academic institutions throughout the world have created a wide variety of customs including distinctive dress, color and ceremony to indicate the accomplishments of scholars. English traditions originating at Oxford and Cambridge led to the development of American academic regalia. By the 20th century, institutions of higher learning in the United States had adopted a well-defined code of academic costume, which now includes the identification of the different academic degrees by distinctive gowns, hoods and colors.

The baccalaureate gown is worn closed and is identified by long, pleated front panels and long, pointed sleeves. The master's gown has very long sleeves, closed at the bottom, and the arms of the wearer are placed through an opening in the front of the sleeves. Doctoral gowns may be worn open, and they are distinguished by velvet panels around the neck and down the front of the gown. Three horizontal black velvet bars, or the color representing the wearer's degree, also mark the doctorate.

In the United States tradition, the hood is the most colorful feature of academic regalia. The bachelor's hood, when worn, is comparatively short; the master's, a bit longer; and the doctor's, at four feet, reaches far down the wearer's back. The outside of the hood is black and is bordered with a two-, three- or five-inch band of velvet in the color representing the degree received, and the hood is lined with the colors of the granting institution. Texas A&M's lining colors are maroon and white. For example, the Master of Arts hood from Texas A&M has a white border for the discipline color of arts, letters and humanities, with a maroon and white lining; the Master of Science hood has a golden yellow border, for science with a maroon and white lining; and the Doctor of Philosophy hood has a border in the blue of philosophy with a maroon and white lining.

Among the discipline colors are:

Arts, letters and humanities — white
Agriculture — maize
Architecture — violet

Business — olive green
Education — light blue
Engineering — orange
Medicine — green
Veterinary medicine — gray

These colors represent the degree earned, not the academic major. The Ph.D. in engineering, for example, would normally wear the dark blue of philosophy on the hood and gown instead of the orange of engineering. Official guests of Texas A&M University at Qatar and members of the Board of Regents wear the doctor's gown with the blue of philosophy on the front and hood.

Gonfalons

The gonfalon, a flag that hangs from a crosspiece or frame, originated in the medieval republics of Italy as an ensign of state or office. Gonfalons have been adopted in many universities around the world as college or institutional insignias. The gonfalons displayed represent the colleges of Texas A&M University. The colors of the university, maroon and white, are joined together in a pattern common to all of the flags. The top portion is the designated color for each unit. The white field serves as a background for the symbol of each.

College of Engineering. As the triangles collaborate alongside each other, projecting a diamond shape, they depict the strong relationship between the diverse engineering disciplines. The use of mathematics, science and technology provide the foundation of solving today's challenging ideas between and within each engineering department. The center illustrates a circuit board to express the continuing growth in technology and engineering today, resulting in new industries and opportunities. The cohesive elements of this design work together as a whole symbolizing communication, interaction, teamwork, and balance in Engineering as the green, blue and navy color palette represents energy, loyalty, wisdom, professionalism and ambition.

College of Geosciences. The white field reveals a yellow sun representing our surrounding atmosphere. The mountain peaks and the horizontal band of golden land represent the lithosphere. The banded waves of white signify the hydrosphere. The atmosphere, lithosphere and hydrosphere form the total environment for life in our world.

College of Liberal Arts. The golden torch symbolizes the various disciplines lighting the path to our goal, “Knowledge for Life.” The circle of blue, the traditional color of knowledge, represents the college’s unending, unbroken commitment to scholarship, learning, and responsible citizenship.

College of Science. This symbol’s segments represent the five departments of the College of Science — Biology, Chemistry, Mathematics, Physics and Statistics. The interweaving of each depicts their close relationship to each other. The inner quilting represents the intellectual search in science and its continuing growth.

Graduate Studies. The golden symbol of infinity represents endless knowledge. In the rainbow’s array of colors, each college at Texas A&M University is identified. Rays of everlasting wisdom and knowledge emanate from the rainbow.

The Association of Former Students

Today, graduates will turn their Aggie Rings so that the class year faces away from the body, symbolizing a readiness to face the world with the power of the Aggie Network behind them.

A student’s journey as an Aggie doesn’t end today. In fact, it’s just beginning. By staying involved with Texas A&M through the Association of Former Students, you are contributing to a legacy of Former Students who support and strengthen the Aggie Network.

The Association of Former Students works to pass back the core values, traditions and experiences that make Texas A&M unique, by inspiring the Aggie Network to pay it forward through programs dedicated to giving, engagement, volunteering and networking.

“The Spirit of Aggieland”

By Mimms-Dunn

Some may boast of prowess' bold,
Of the school they think so grand,
But there's a spirit can ne'er be told,
It's the spirit of Aggieland.

Chorus

We are the Aggies — the Aggies are we,
True to each other as Aggies can be.
We've got to fight, boys,
We've got to fight!
We've got to fight for Maroon and White.
After they've boosted all the rest,
They will come and join the best,
For we are the Aggies — the Aggies so true,
We're from Texas A M U.

This program lists the candidates for graduation. Certification of degrees is available from the Office of the Registrar, Texas A&M University, College Station, Texas, and the Office of Records, Texas A&M University at Qatar, Doha, Qatar.

This program is a commemorative booklet to recognize those 2019-2020 graduates whose in-person ceremony was postponed.

Texas A&M University at Qatar, Volume 13, No. 1, May 2020. Published once in the spring by the Office of Records, Texas A&M University at Qatar, Doha, Qatar.
