

- Please note the Course Mode of Instruction in the top section, as well as in the 7th column. Course Modes of Instruction remains subject to change.... (as does the schedule itself.).
- The class room locations are only really relevant to those courses indicated in "gold". We have, however, planned for class/studio-rooms in the off-chance that life takes on a sense of normality again. :)
- All in-classroom sections will be simultaneously and synchronously broadcast to zoom. No student is mandated to attend in person.

**GDES 491 - Topics: Fabrication of Sound** - is a new elective. It is open to XREG.
